

Product information

Marine Winch Grease

PI 25/09/24/2026

Description

High-performance synthetic grease containing a combination of light-colored solid lubricants. Specially developed for all types of winches. The solid lubricant provides excellent wear protection and reduces friction. Resistant to fresh and salt water, with excellent adhesion. Does not contain resins or acids.

Properties

- outstandingly adherent
- excellent high-pressure and wear protection properties
- ensures a long service life

Technical data

Brief description	KHCF1N-35
Thickener	gel
Base	synthetic oil
Operating temperature range	-35 - +150 °C
Color / appearance	white
NLGI number	1
	DIN 51 818
Dropping point	without
	DIN ISO 2176
Base oil viscosity 40°C	380 mm ² /s
	DIN 51 562
Water resistance	0
	DIN 51807

Areas of application

For winches with non-ferrous metal or plastic/metal pairings. Highly adhesive and resistant to harmful environmental conditions.

Application

Before treating, the surfaces must be clean and free from residues, dirt and moisture.

Available pack sizes

100 g Tube plastic	25045
	DE-ES-FR-IT-NL
100 g Tube plastic	25046
	DA-EL-EN-FI-NO-SV
