

Marine 4T Shooter

Description

An effective mixture of additives that clean and maintain fuel systems of port injected and carbureted gasoline engines. Cleans injectors, combustion chamber and protects against corrosion. Restores proper fuel atomization and improves engine efficiency. Regular use keeps the fuel system in perfect working order.

Properties

- removes deposits from entire fuel system
- removes carbon deposits from intake valves and combustion chamber
- cleans the injection system
- saves fuel and reduces pollutant emissions

and may be considered reliable, although not legally binding.

Technical data

Base	additive mixture in liquid carrier
Color / appearance	yellowish, light orange
Regulation on Flammable Liquids Class (Germany)	A III
Flash point	> 141 °F
Pour point	< -76 °F
Form	liquid
Odor	aromatic
Viscosity at 104 °F	<7 mm ² /s
Density at 59 °F	0,808 g/ml

Areas of application

Suitable for use in all 4-stroke gasoline engines, with or without turbochargers. Safe for use with catalytic converters and particulate filters (GPF).

⚠ WARNING: This product can expose you to chemicals including naphthalene, which is known to the State of California to cause cancer. For more information go to www.P65Warnings.ca.gov

Application

Contents (200 ml) is sufficient for 50–70 Liters (13 gal. to 18 gal.) fuel. Fluid is self mixing.

Available pack sizes

200 ml Can sheet metal 25102
USEN
