

Invisible Glove

Description

Liqui Moly Invisible Gloves is used to protect hands before work or after every handwash before they are heavily contaminated. Invisible Gloves is supplied in the form of an air-permeable paste. This product prevents dirt from lodging in the pores of the skin. Its soft and gentle constituents have been shown to protect the skin in numerous dermatological tests. Due to its special composition, Invisible Gloves is up to 95% biodegradable and is dirt repellent.

Properties

- dermatologically tested
- dirt repellent
- protects and cares for the skin
- neutral to skin
