

Gear Hydraulic Oil TO-4 SAE 30

Description

High-performance multi-purpose oil made from high-quality raffinates. Thanks to the high thermal stability of the base oils, the aging process is significantly reduced even at elevated temperatures. This decisively helps reduce the formation of sludge, improves cleanliness and promotes the reliability of the transmission and hydraulic systems. Excellent oxidation resistance allows oil to be used for longer periods (changing intervals). The outstanding wear-protection technology is effective in both low and high load conditions. Specially developed additives guarantee a longer service life for wet clutches and ensure wet brakes work safely.

LIQUI MOLY recommends this product for vehicles or assemblies for which the following specifications or original spare part numbers are required:

Allison C4 • Allison TES 439 • API CF • API GL4 • Caterpillar TO-4 • Komatsu • ZF TE-ML 03C • ZF TE-ML 07F
