Pro-Line Diesel System Cleaner Concentrate

Description

A highly effective mixture of additives for rapid removal of performance diminishing deposits from the fuel system in all kinds of diesel engines. Cleans injectors, the combustion chamber and restores proper fuel atomization for improved engine efficiency and lowest emission values.

Properties

- good corrosion protection
- increases operational reliability
- improved ignition
- rapid and simple problem-solving
- guarantees optimum combustion
- cleans the fuel system
- eliminates diesel knocking
- minimizes wear
- optimal engine performance
- removes deposits from entire fuel system

Our information is based on thorough research and may be considered reliable, although not legally binding.

Technical data

Base	additive, carrier fluid
Color / appearance	light brown, clear
Density at 59 °F	0,869 g/cm³
Flash point	145 °F
Viscosity at 104 °F	< 7,0 mm²/s
Odor	characteristic
Form	liquid

Areas of application

Suitable for use in all diesel engines, with or without turbochargers. Safe for use with catalytic converters and particulate filters (DPF). Fully compatible with all common diesel fuels, including R99 diesel.

⚠ WARNING: This product can expose you to chemicals including naphthalene, which is known to the State of California to cause cancer, and n-hexane, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov

Application

To be added directly into the fuel tank. Use as preventive during regular inspection or to cure acute engine problems. Dosage is 1:300, so 1 Liter is sufficient for 300 Liters (80 gal.) of fuel. The product mixes with the fuel automatically.

Available pack sizes

1 l Can sheet metal	22248 USEN
