

Pro-Line Diesel System Cleaner

Description

Highly effective additive combination for quick, economical cleaning of troublesome deposits in the fuel system of diesel engines. Guarantees optimum corrosion protection and increases the ignition performance.

Properties

- good corrosion protection
- increases operational reliability
- improved ignition
- rapid and simple problem-solving
- guarantees optimum combustion
- cleans the fuel system
- eliminates diesel knocking
- minimizes wear
- optimal engine performance
- removes deposits from entire fuel system

Technical data

Base	additive, carrier fluid
Color / appearance	light brown, clear
Density at 15 °C	0,869 g/cm ³
Flash point	63 °C
Viscosity at 40 °C	< 7,0 mm ² /s
Odor	characteristic
Form	liquid

Areas of application

For all diesel vehicles, including with common rail and pumped jet injection.

Application

To be added directly into the fuel tank. For preventive use during every inspection, after repairs to the fuel system, for treating problems or after every JetClean cleaning. To eliminate problems, we recommend mixing the product with the fuel during refueling over approximately 2,000 km. Contents of can are sufficient for max. 70 l of fuel.

Available pack sizes

500 ml Can sheet metal	1797 AR-DE-EL-FR-NL
500 ml Can sheet metal	2996 DA-EN-FI-NO-SV
500 ml Can sheet metal	5156 DE-EN-ES-IT-PT
500 ml Can sheet metal	20450 BG-DE-PL

Available pack sizes

500 ml Can sheet metal	20811 DE-EN-HR-SL-SR
500 ml Can sheet metal	21602 AUEN-EN
500 ml Can sheet metal	21625 CS-RO-SK
